Vogue have been touring with their sensational Madonna show for eight years, performing in theatres, hotels and arenas, and at festivals and music venues all around the world.

## VOGUE MADONNA

The show features Elly as Madonna, alongside a talented line-up of live musicians and dancers.

Costumes from the 1980s right up to the present have been recreated with great attention to detail, from the lacy, punky image of the early days to the Gaultier-designed basques, the cowboy-style chaps and the latest Fame-inspired dancewear from her most recent 'Confessions' tour.

They have entertained a prestigious list of clients (including Prince William and Richard Branson) and have been the highlight of corporate events for major companies (such as Microsoft and HSBC).

Vogue recreates the exciting production of Madonna's concerts and invites the audience to strike a pose, get into the groove and sing along with the Queen of Pop's biggest hits from the past three decades. Join in the nostalgia, and re-discover the best of Madonna with Vogue.
